Safety Precautions

1. Do not short circuit.
2. Ensure correct voltage is used as continuous excessive voltage could damage your equipment.
3. Do not try to use this power supply with appliance requiring more than 2.1A.
4. Do not attempt to open this unit.
5. Remove from mains when not in use.
6. Do not use if unit appears to be damaged.
7. Do not use device near water or when wet.
8. The socket-outlet should be installed near the equipment and should be easily accessible.

Instructions for use

1. Before using, check your device's input voltage and this charger's output voltage for the port you intend to use, to ensure compatibility. Make sure the total loading does not exceed the rated output current of this charger.
2. Connect your device to the charger via the correct port using a FIFO USB cable.
3. Plug this charger into mains outlet (240V AC in the UK).
4. Your digital device should indicate it is now in charging mode.
5. Please unplug this charger from wall outlet when not in use.

After-Sales support

If you discover that this product contains a manufacturing defect which affects the operation of this device, you may return it to any site in the UK that sells FIFO accessories and exchange it for a new FIFO item of the same value, subject to availability. This does not affect your statutory rights. If you experience any problems obtaining a replacement item or require any other assistance, please contact via our email: support@fifouk.com

Correct Disposal of this product

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources.
